

TIM HENMAN FOUNDATION

One Life, Many Opportunities

The Tim Henman Foundation is a youth charity with the mission of transforming the lives of disadvantaged young people by improving mental as well as physical health and creating sporting and educational opportunities together with our partners.

Our Sport & Education programmes are for children and young people from 5–25 years of age who are disadvantaged by: financial hardship, wider socio-economic issues, disability and ill health.

Delivery

We develop delivery programmes in areas of deprivation where there are high rates of poverty and gaps in provision.

Partnerships

We work in partnership with host partners (schools, youth centres, clubs) and delivery partners (coaching providers, independent coaches, teachers and mentors) to put these programmes on the ground.

Opportunity

We provide sustainable opportunities for children and young people, whose lives are currently characterised by poverty and a general lack of opportunity.

Finance

We bring much needed financial support into areas and to those who require it the most.
